					many and an army sample of the same sample of the sample of the same sample of the same sample of the same sample of the same sample of the sample of the same sample of the same sample of the same sample of the same sample of the sa

- TEB Carl Zeiss Jona has contous shortages of the following materials:

  Non-derrous solute, particularly copper,

  Telephone cornection cables,
  agents for the treatment of glass surfaces, particularly
  Following (polishing rouge),
  Fluorishin,
  Cuartz
- 2. Most of these materials were formerly produced from Western sources.

  Illegal producement from the West has now become more difficult and no longer provides the quantities needed. Some of the items mentioned above, however, are being stungled into the DDR piecemeal in rucksacks.
